Pardon the mess, Vos Glass Resource Center gets a new look!

Grand Rapids, MI – Ten years ago Vos Glass created a one of a kind, award winning Resource Center. Open to architects, designers, engineers, contractors, builders, building owners and homeowners, this one-of-a-kind, one-stop hands-on experimental showroom was designed for demonstrating commercial and residential glazing applications. Progressive new displays of up to date products and applications, modernized technology and a more user friendly environment will be featured in a massive renovation of this unique showroom library that began in January and should wrap up in mid-march.

Vos Glass will continue to lead the industry with state of the art designs and displays. The new Resource Center will continue to give customers a one stop shop for all of their glass needs while showing more glass solutions and trends. There will be various displays such as glazing hardware samples, shower doors, decorative glass, storefront/curtain wall, exterior glass, mirrors and more.

Vos Glass, Inc. is a professional, full service glass company owned and operated in West Michigan. They provide a full range of glass products and services for commercial and residential applications.
